North American Contractors Certification (NACC)

The [North American Contractor Certification \(NACC\) Program](#) is the glazing industry's only third-party, ANSI accredited recognition of architectural glass and metal contractors who consistently demonstrate business and operational excellence. It aims to establish a baseline for competency, business practices, and industry-accepted guidelines for glazing contractors.

We've seen great growth with this program, including being referenced in specifications 279 times in the last 2 years (as of May 4, 2021). This includes MasterSpec.

Cal/OSHA Postpones Vote on COVID ETS Amendments

On May 7, 2021, Cal/OSHA posted new proposed amendments for its Covid-19 emergency temporary standards. (<https://www.dir.ca.gov/oshsb/documents/COVID-19->

At the recent meeting on May 20th, Eric Berg, the Deputy Chief of Cal/OSHA asked that the Standards Board not vote to adopt Cal/OSHA's proposed ETS amendments.

Berg asked that Cal/OSHA be allowed to present a new proposal for adoption at a future meeting with a targeted effective date of June 15, 2021. Berg cited the new developments of the CDC's updated guidance to allow fully-vaccinated individuals to forego masks in some situations and California's announced goal of fully reopening the state by June 15th, as the reasons for the postponement.
