- ✓ **Get COR Approvals 65% Faster**

- ✓ **Minimize Risk of Lost/Rejected T&M Tags to <1%**

- ✓ **Improve Cash Flow & Reduce Days Aging**

- ✓ **Save Valuable PM Time - Up to 5 Hrs/Week**

- ✓ **Create Better Customer Relationships**

CLEARSTORY

Accelerate cash flow. Reduce risk. Improve forecasting accuracy.

"It worked flawlessly. It saves so much time and eliminates so much negotiation. The field guys love it because they're not having to write Tickets and send me a bunch of pictures, and the GCs love it because it creates, and organized, clean, up-to-date, universal Log for all changes."

Noah Quest
Director of Operations

Real Solutions for Real Projects

Cloud-Based Shareable COR Log
Keep your GC up-to-date with a link to your live COR log that includes a link to every COR PDF, version history, paper trail, and more.

Digital Time & Material Tags
Create, photo-document, and sign digitally field-directed extra work with our easy to use mobile app and cloud based T&M log.

Professional COR Templates
Instantly convert T&M Tags into CORs with pre-approved imported rates or create CORs from scratch.

Proactively manage projects with data and insights like real-time days aging, read-receipts, contract summaries, and more.

Real Success for Our Customers
